Governor Lindsey Almond,
Commonwealth of Virginia,
Governor's Office,
Richmond, Va.

My dear Governor:

I am enclosing herewith copy of letter which I have just written to the President of the National Broadcasting Company, which is self explanatory.

I certainly hope you will immediately take the necessary steps through the proper channels of your office to protest and prohibit the National Broadcasting Company, or any other television company, from sending in to the State of Virginia such distorted programs, as the one which appeared on television Sunday April 10.

If we could stop such programs as these from being televised and printed in the newspapers, I feel that such problems could be solved, but instead of helping in some way to solve them, they are being distorted and breeding more unrest, which makes the problem harder for us to solve.

I certainly hope you will give this your immediate attention.

Thanks very much, and my kindest regards.

Yours very truly,

Remmie L. Arnold Sr.
